

Cloud Practice-AWS

ML Solutions to Power Your Business

Helping businesses
harness the power of AWS

**The most comprehensive assistance
in your AWS journey**

We specialize in providing our customers with comprehensive assistance in their AWS journey. Most of our clients use us as their strategic advisory partner to assist them in their business transformation for

adoption of Cloud. We cover each aspect of customer's AWS journey and provide necessary advisory, management and delivery capabilities.

AWS Customer Journey

EXPLORE

We assist customers to understand AWS and its power, explore applications from AWS market place and provide necessary advisory services.

ADOPT

We provide end to end migration assistance to our customers in migrating their applications from on-premise to AWS.

EXPAND

We specialize in providing AI, ML and DL solutions based on AWS Sagemaker, AWS Polly and AWS Lex.

TRANSFORM

We assist customers in their code re-factoring process as well as their DevOps processes to derive the full benefits of AWS.
